Web Technologies: HTML, CSS

Development & Collaboration: GitHub, Technical Documentation, Visual Studio Code

Professional Skills: Analytical Thinking, Problem Solving, Attention to Detail, Communication, Teamwork & Collaboration, Adaptability

RELEVANT PROJECTS

Data & Tech Job Market Analysis <i>Microsoft Excel</i>	August 2026
• Analyzed job market data to identify trends in job demand, salaries, companies, employment types, and work arrangements. • Applied Excel formulas, data cleaning techniques, and analytical methods to compare job positions, countries, companies, and degree requirements.	

- Developed an interactive Excel dashboard with filters and visualizations to present insights into the data industry job market..

The impact of Residential Distance from School on Students' Sleep Hours

March 2026

Data Analyst | Microsoft Excel

- Analyzed survey data using descriptive statistics, correlation, and regression analysis to examine the relationship between residential distance and students' sleep hours.
- Cleaned and transformed survey responses to prepare the datasets for analysis.
- Developed an interactive dashboard to visualize key findings and communicate data-driven insights

OTHER PROJECTS

RentifyPro: Advanced Vehicle Rental System

March 2026

UI/UX Designer | Front-End Developer | System Analyst

- Designed and developed the user interface and front-end components of a peer-to-peer vehicle rental platform.
- Contributed to system analysis, user flow design, and interface development to support vehicle listings, bookings, and rental transactions.
- Selected for exhibition during the Capstone Project Exhibit, where the project was presented to faculty members and fellow students.

ArangKada Rent

November 2025

Front-End Developer | UI / UX Designer | System Analyst

- Designed and developed a web-based vehicle rental system to streamline vehicle management, booking, and customer tracking.
- Contributed to interface design, system requirements analysis, and front-end development.

Engkanto Escapade

November 2024

Project Manager | Database Administrator

- Led the development of an endless runner game inspired by the Filipino folklore.
- Managed project coordination and contributed to database design and administration.

SEMINARS / WORKSHOPS

Tech Summit

March 2026

- Gained foundational knowledge of Power BI and data visualization through a session led by a Data Analyst.
- Exhibited the capstone project, *RentifyPro: Advanced Vehicle Rental System*, during the event.

TechTalk: A Peek into Business Programming – Introduction to SAP

October 2025

- Gained foundational knowledge of SAP and its applications in business programming.

Python Alchemy: Brewing Magic and Code

2022

- Learned fundamental Python programming concepts and basic programming techniques.
